Albert Einstein was more than just a scientist. He was a genius who changed our lives. He made some of science's biggest discoveries and also developed some important theories. His discoveries made things like television, DVD players, and garage door openers possible. Einstein was born in Germany in 1879. He performed extremely well in school.

Einstein later attended school in Switzerland where he made many friendships and also met his future wife who was a physics student. His work was and is valuable to the world. This is one of the reasons he eventually won the Nobel Prize in Physics. The Nobel Prize is a very famous award given to someone who has done outstanding work in different subjects like science or medicine. Einstein died in 1955.
